*Ho Chi Minh, ngày 2. January 2026*

**To:**

- **State Securities Commission**
- **Ho Chi Minh City Stock Exchange**

Binh Duong Water - Environment Corporation - Joint Stock Company respectfully extends its greetings to the State Securities Commission and the Ho Chi Minh city Stock Exchange!

Pursuant to Circular No. 96/2020/TT-BTC dated 16 November 2020 of the Ministry of Finance guiding the disclosure of information on the securities market and Circular No. 68/2024/TT-BTC dated 18 September 2024 amending and supplementing a number of articles of Circular No. 96/2020/TT-BTC, Binh Duong Water - Environment Corporation - Joint Stock Company respectfully submits this explanation regarding the fluctuation in business results as presented in the Separate Financial Statements for the Quarter 4 of 2025 compared to the same period in 2024. Details are as follows:

No.	Item	Quarter 4 of 2025	Quarter 4 of 2024	Fluctuation increase/ decrease	%
(1)	(2)	(3)	(4)	(5) = (3) – (4)	(6)
1	Total net profit before tax	204,604,210,702	98,123,287,518	106,480,923,184	108.52%
2	Profit after corporate income tax	184,197,357,134	90,409,839,966	93,787,517,168	103.74%

**This is attributable to the following reasons:**

+ *Main business activities:* During the period, the Company continued to maintain stable growth in the number of customers connected to the clean water supply, the volume of clean water consumed, as well as the water loss ratio. As a result, revenue from clean water production activities in the Quarter 4 of 2025 recorded stable growth compared to the same period of the previous year.

However, due to the revenue from waste treatment of this period decreased compared with the previous period, thus leads to an increase in total revenue from sales and service provision this period compared to the previous period.

- + *Financial activities:* During the period, the Company recorded interest income, dividends or profits received decrease by VND 28.88 billion compared to the same period of previous year. However, due to the Company has applied measures to hedge exchange rate risks by signing Cross Currency Swap (CCS) contracts with credit institutions, certain loan facilities were converted to fixed interest rates and exchange rates under the signed CCS contracts. These measures contributed to reduce in interest expenses of VND 43.56 billion, decrease in foreign exchange losses at the end of the period of VND 52.49 billion compared to the same period of previous year. Other items are not significant increased/decreased.
- + Other items are not significant increased/decreased.

The combination of the above factors led to an increase in Separate profit before tax for the Quarter 4 of 2025 by VND 106.48 billion (up 108.52%), and an increase in profit after tax by VND 93.79 billion (up 103.74%) compared to the same period of the previous year.

The above is the explanation provided by Binh Duong Water - Environment Corporation - Joint Stock Company, respectfully submitted to the State Securities Commission and the Ho Chi Minh City Stock Exchange for your consideration.

*Respectfully thank you!*

## 2.5 . Financial Instruments

### *Initial recognition*

#### Financial assets

Financial assets of the Company include cash and cash equivalents, trade receivables and other receivables, lending loans and long-term investments. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

#### Financial liabilities

Financial liabilities of the Company include borrowings, trade payables and other payables, accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expense directly related to the issuance of those liabilities.

#### *Subsequent measurement after initial recognition*

Financial assets and financial liabilities are not revalued according to fair value at the end of the fiscal year because the Circular No. 210/2009/TT-BTC and prevailing statutory regulations require to present Financial Statements and Notes to financial instruments but do not provide any relevant instruction for assessment and recognition of fair value of financial assets and liabilities.

### 2.6 . Foreign currency transactions

Foreign currency transactions during the year are translated into Vietnam Dong using the actual rate at transaction date.

Actual exchange rate when revaluing monetary items denominated in foreign currencies at the reporting date of Separate Financial Statements is determined on the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For cash deposited in bank, applying the bid rate of the commercial bank where the Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All exchange differences arising as a result of transactions or revaluation at the end of period shall be recorded into the financial income or expense in the fiscal year.

### 2.7 . Cash and cash equivalents

Cash includes cash on hand, demand deposits at Bank and deposits at the Treasury.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

### 2.8 . Financial investments

*Investments held to maturity* include: term deposits, bonds, lending loans, ... held to maturity to earn profits periodically and other held to maturity investments.

*Investments in subsidiary, associates* are initially recognized in the ledger according to original cost. After initial recognition, the value of these investments is determined at original cost less provision for devaluation of investments.

*Equity investments in other entities* comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

Provision for devaluation of investments is made at the end of the fiscal year as follows:

- *Investments in subsidiary, associates*: provision for devaluation of investments is made when the investee has incurred a loss, based on the Financial Statements of subsidiary, associate on provision date.
- *Long-term investments (other than trading securities) without significant influence on the investee*: based on the Financial Statements at the provision date of the investee.
